\$10 off Serum-C

Camu Camu Extract (Myrcaria dubia)	Known to have the second highest level of Vitamin C content of any fruit. It is also a significant source of potassium, and has a full complement of minerals and amino acids that can aid in the absorption of Vitamin C.
Acerola Cherry Extract (Malpighia glabra)	The acerola cherry is especially rich in Vitamins A and C, and this fruit has been shown to have powerful antioxidant benefits.
Black Currant Berry Extract (Ribes nigrum)	Contains high levels of Vitamin C and was used as a source of this vitamin when oranges were scarce.
Pomegranate Extract (Punica granatum)	Is considered a "superfruit" because of the large number of vitamins it contains. It has been used for centuries to help reduce the effects of oxidative stress. Has a high level of Vitamin C, along with other vitamins and antioxidants, including potassium and Vitamin B5.
Argan Seed Extract (Argania Spinosa)	The Argan tree grows only in the south of Morocco, resembling an olive tree that produces small yellow fruits that turn brown when ripe. It is rich in essential fatty acids, and is resistant to oxidation.
